GERMAN FOR PHARMACEUTICAL STUDIES

Code Number: ΝΠ 18-09

Semester: 1st

Lectures (hours/week): 3

Credit Units (ECTS): 4

Tutor: Panagiota Popoti (Special Teaching Staff, Language Centre of Aristoteles University Thessaloniki)

Course Description

The German language can be chosen by the first term students, who have knowledge of German at B1 level. It's about teaching German for specific purposes in the Pharmaceutical Sciences. The goal of this course is to familiarize the students with texts and terminology that have to do with their studies.

Aims

The aim of this course is to introduce Pharmaceutical Terminology to students and to teach them how to learn, understand and use it. Through studying the latest pharmaceutical texts they discover the pharmaceutical terms and understand the textual content. They are encouraged to describe the details of the texts, to speak and write about them in German.

Skills

After the completion of the course the students will be able to work with texts about their science and to know how to cope with understanding difficulties. They will be able to summarize a paper, an article etc., discuss and express their opinion about them.

Course contents

- Basic knowledge of anatomy in German
- German Chemical Terms
- Some pharmacists' technical language
- Pharmaceutical Analysis
- Pharmacology
- Pharmacodynamics
- various Pharmaceutical articles

Proposed literature:

The teaching material is a collection of texts written by the tutor. It's uploaded in elearning.auth.gr

Educational activities

Lectures, writing exercises and discussion with the students.

Evaluation process and methods

Taking a written examination at the end of the term.

Use of ΤΠΕ

Notes, statements, teaching material etc. are presented in elearning.auth.gr

<https://elearning.auth.gr/course/view.php?id=12375>

Lectures

Lectures are given in Skype for business meetings once a week: on Friday at 12.15 a.m.
